Keir Townsend Showroom Launch

With an extensive portfolio of residential and commercial credits - Keir Townsend is an interior design consultancy known for creating aesthetic and inspiring spaces. 16 May 2012 will see the company open a new retail showroom in the heart of South Kensington, one that will bring something very different to the capital's interior design scene. Modern art meets interior design is the prevailing theme of the showroom.

The Keir Townsend design team has spent many months travelling the world in order to create a one-stop destination for the most stylish, unique and innovative furniture, lighting, flooring and accessories. Every piece in this showroom is a work of art and although very different, each has been chosen to complement one another. Thus traditional handmade Tuscan wood flooring beautifully offsets state-of-the-art brass and copper-clad furniture.

Keir Townsend will be showcasing the latest designs by some of the world's most talented artisans whose works has been acclaimed as setting trends and changing perceptions of design classics alongside art pieces by emerging talents. The company is also delighted to announce that it has been awarded the exclusive UK rights to represent some of Europe's most celebrated design companies.

Commented Keir Townsend Director Irina Townsend: "We are really excited to be launching this showcase; the reaction we have had from suppliers and potential customers alike has been phenomenal. Our team has travelled the globe to bring back a hand-picked collection of exclusive items, many of which are completely new to the UK. Some of our furniture items are signed, limited edition pieces complete with serial numbers, thereby allowing our clients to create truly unique environments.

"Our raison d'être is the art of living, with every object a piece of art."
