## RECLAIMED FIR

With more than 50 new pieces, bigger and better versions of old classics and a lovely soft palette of fresh colours, we're massive fans of Loaf's autumn range. Entitled Rhubarb and Custard, the collection features the Quill bureau, £695, made from solid reclaimed fir recovered from old buildings with a beautiful beached timber finish. ## STATEMENT LEATHER

Choosing natural materials doesn't mean you have to compromise on style. Made in Italy, this hanging white leather armchair suspended from a metal chain, by Keir Townsend, £3,300, is a true statement piece. Available in a variety of finishes, this comes as either a hanging armchair or a floor-standing armchair with a black base.

## GRAPHIC EDGE

Natural materials feature heavily in ferm LIVING's new autumn/winter 2014 collection, which celebrates the lovely textures, aesthetics and materials that surround us every day. Rope and stone hanging plant pots, stunning black marble candle holders and oak cutting boards are given ferm LIVING's distinctive graphic edge and Scandinavian flair.

## WOOD WITH A TWIST

Admire the beautiful patterns of chopped wood with this stunning limited edition Eden Patina coffee table from Boca Do Lobo. However, this isn't quite as natural as it first appears; the table is actually created from polished casted brass with a patina and a delicately engraved top. The Eden collection includes both centre and side tables in a variety of finishes.
