4. UNDERFOOT

Manufacturer: Addagrip
Price: job specific
Tel: 01825 761333

While resin-bonded surfaces aren't a new concept, Terrabase Rustic has a point of distinction that sets it apart from its competitors: it's possible to apply directly to most surfaces and gradients, making it fast and cost effective to get on the ground. It's available in four colours, and is free-draining and flexible, which prevents cracking.

5. WOVEN WAYS

Designer: Povl Eskildsen for Gloster
Price: from £511 (dining chair)
Tel: 01454 631950

The interwoven straps and angular teak frames of the Maze collection really caught my eye – it's furniture that would look great indoors, with all the robustness and durability needed in an outdoor set. The straps are polypropylene, although there's also a PVC coated rope option to consider. Gloster is a stalwart of the contemporary garden furniture scene, so be sure to add it to your contacts.

6. LEADING LIGHT

Supplier: Keir Townsend
Price: from £560
Tel: 020 7746 2442

This classic light can be used as a floor-, wall- or ground-mounted lamp. Available in a bronze-lacquer or chrome finish, and with the choice of battery or electric power, it suits most locations. Use several to light a courtyard or terrace, and there's scope to move them around to different areas of a space as you please. Keir Townsend is a renowned interior design company, and this piece exudes quality.
