PUT A RING ON IT

Reiko Kaneko's minimalist ceramics move in a luxe direction with her new jewellery collection. We reckon the simple geometric shapes – from the triangle to the pentagon – will work with your look from day right through to evening. *Square bone-china Hula in Gold*, from £125 (reikokaneko.co.uk)

COAST TO COAST

Sometimes guests need a little encouragement to not put drinks on your vintage Noguchi and these coasters should do the trick. Made from semi-precious gems including agate and crystal, they're edged in sterling silver and have rubber feet. And relax... £125 for a set of four (keirtownsend.com)

A new leaf

Our pick of Atelier des Ors' debut fragrance collection is *Lune Féline*. It's a tasty mix of cinnamon, cardamom, pink pepper and vanilla... with just a pinch of gold leaf! Available exclusively at Harrods. £225 (harrods.com)

Space invaders

Furniture company *Joined + Jointed*'s collaboration with *Kirkby Design* fabrics mixes up the decades, with simple mid-century shapes covered in patterns inspired by Seventies computer games. *Trident cotton-mix sofa in Arcade Indigo*, from £1,295; and *Trident cotton-mix armchairs in Boost Lime (yellow) and Boost Eden (green)*, from £915 each (joinedandjointed.com)

Livingetc LOVES

IT'S A CHOUX IN

Next time you're heading to South Ken's museum quarter, pop into new *Maitre Choux* for an elegant éclair. Top pastry chef *Joakim Prat*'s colourful concoctions are almost too pretty to eat. Make ours a Persian Pistachio to go. 15 Harrington Road, SW7 (maitrechoux.com)

MICRO GARDEN

Fermob's *Basket High Planter* is a handy solution for small space gardeners. Available in 24 colours, the steel container is guaranteed for three years. Show the bees some love and fill it with flowers. £280 (barbed.co.uk)
